

Pool Pro Premium Swimming Pool Salt

Product Description

Pool Pro Premium Swimming Pool Salt is a naturally evaporated solar salt (sodium chloride). Produced in Australia, this high quality pool salt uses the natural elements of Australia's pristine salt water, clean air and sun. It is then harvested, double washed, dried, sized and packaged in accordance with a system that complies with ISO 9001. Pool Pro Premium Swimming Pool Salt is a translucent to white solid, with a texture of medium to fine granules. It has a mean particle size of approximately 0.8mm to 1.0mm.

Storage Conditions

Clean, dry storage and transport conditions are required to keep the product as delivered. Conditions less than 75% relative humidity are most suitable. Fine grain salts are particularly susceptible to caking. As a guide this product should be used within 6 - 9 months from manufacturer date to avoid significant caking problems. Product should be stored inside or out of direct sunlight to prevent UV damage to bags. Customers should assess their own individual needs for order frequency, stock rotation, stock levels and local condition.

Country of Origin

Salt = Product of Australia.

CHEMICAL ANALYSIS

Purity	99.4% min
Moisture	0.5 % max
Insolubles	0.05% max
Magnesium	500 mg/kg max
Calcium	1000 mg/kg max
Sulphate	2500 mg/kg max
Iron	10 mg/kg max

GRAINSIZE

	Min	Max
2.0 mm	0 %	5 %
1.70 mm	0 %	15 %
0.425 mm	60 %	100 %
0.15 mm	85 %	100 %
through 0.15 mm	no greater than 15 %	

ADDITIVE

Contains no additives

PALLETISING - Standard

Bag Size	20kg net weight	20kg net weight
Pallet type	Chep	Chep
Bags per pallet	60 bags	64 bags
Pallet Weight	1.2 Tonne	1.28 Tonne

*Also available in other pack sizes by negotiation

PROTECTION AND LABELLING

Packed and sealed in woven polypropylene bags
 Bonded internal laminate with polyethylene liner
 Pallet slip sheet; Stretch wrapped
 Date of packaging: DDMMYY - code used for traceability
