POOL PRO ULTRAFINE SWIMMING POOL SALT

Product Description

Pool Pro Ultrafine Swimming Pool Salt is a naturally evaporated sea salt (sodium chloride). **Produced in Australia**, this high quality pool salt uses the natural elements of Australia's pristine waters, clean air and sun. It is then harvested, double washed, dried, sized and packaged in accordance with a system that complies with ISO 9001. Pool Pro Ultrafine Swimming Pool Salt is a translucent to white solid, with a texture of medium-fine granules. It has a mean particle size of approximately 0.3mm and the addition of anti-caking additive FAN535.

Storage Conditions

Clean, dry storage and transport conditions are required to keep the product as delivered. Conditions less than 75% relative humidity are most suitable. Fine grain salts are particularly susceptible to caking. As a guide this product should be used within 3 - 6 months from manufacturer date to avoid significant caking problems. Product should be stored inside or out of direct sunlight to prevent UV damage to bags. Customers should assess their own individual needs for order frequency, stock rotation, stock levels and local condition.
